This is a dynamic role that requires strong analytical skills, excellent communication, and a solid understanding of financial principles.

Responsibilities:

- Responsible for conducting statutory audits, tax audits, and group reporting audits for clients across a variety of industries.
- Deliver high-quality audit and assurance service, Risk Advisory Service including timely preparation of audit plans and related documentation.
- Ensuring compliance with the applicable Standards on Auditing (Indian / International) and the applicable financial reporting framework / GAAP (Indian GAAP / IFRS / German GAAP etc.).
- Maintain the highest levels of ethical, technical, and professional standards.
- Responsible for working in teams and supervising article students as required.
- Building and maintaining a professional relationship with the clients
- Participate in training for the audit staff on technical / non-technical topics and act as a mentor for article students
- Should be a team player with good interpersonal, communication, and project management skills including working in teams
- Implement accounting systems and processes of various clients.

Qualifications:

- Education: Chartered Accountant (CA) Inter/Semi-Qualified who have completed their Articleship is required.
- Knowledge: Strong understanding of accounting principles, financial analysis, taxation laws, and auditing practices. Proficiency in accounting software and MS Office applications.

Skills:

- Excellent verbal and written communication skills, with the ability to explain complex financial concepts in a clear and concise manner.
- Analytical Skills: Strong analytical and problem-solving abilities, with attention to detail and the ability to interpret and analyze financial data accurately.

- Time Management: Demonstrated ability to manage multiple tasks simultaneously, prioritize work effectively, and meet deadlines.
- Professionalism: High ethical standards, integrity, and a commitment to maintaining client confidentiality.
